

FEED ADVICES 2020

(UK)

PREMIUM MARATHON

(SPECIALITY : LONG DISTANCE - OVERNIGHT RACES).

Your Matador dealer:

Important advice when feeding Premium Marathon:

Racing on Sunday: shift the whole plan forward one day.

Basketing on Thursday: (2 days in the basket) The feeding on Friday will be expired. The pigeons will receive their carbohydrates (maize) in the basket.

After a hard race: Feed Turbo Extreme. For example: your pigeons have had a hard race of 400 km. You can see they are very tired. Feed them after the race Turbo Extreme + light digestible protein like Backs Protein Plus and Glut-Amin . The next day you mainly feed them Premium Marathon until the birds are recovered. When they are, feed them according to your plan.

After an easy race: Feed them the Premium Start a bit longer. The pigeons lost less fat and protein, so you do not have to catch up with that so much. Before a hard race: For example: When a race has taken much longer than you expected, feed the pigeons more Turbo Extreme and maize at the end of this week. If this is not enough as it seems to you, supply your birds with peanuts after the food. Be careful: only use the best quality of peanuts you can get.

Take care of canker and catching cold: Treat only your pigeons against canker when it is absolutely necessary. Consult prefer a good pigeons - vet. When the pigeons catch a cold, they cannot perform. The pigeon must have enough oxygen, otherwise they cannot perform optimally. Therefore, if necessary, you have to give a cure in the beginning of the week.

In Spring when it is relative warm: the temperatures by day should be similar by night as well, (no more than 7 degrees difference in the loft between day and night), Feed them more Premium Start (Monday). On Tuesday and Wednesday : 2 parts Premium Start + 1 part Premium Marathon.

Youngsters: there are fanciers now, who almost daily train their youngsters. They have to adjust the feeding. Information obtained through your Matador advisor.

Aeration: We recommend ventilation suitable to the season. If the night is cold, it is wise to retain the heat. This should not drop, lower than 7 degrees from the daytime temperature. Even after a cold spring flight, the bird needs warmth. Roof insulation with dupanel isolation boards is often a good option. Work as possible on the day of return with heating plates or floor heating. Avoid drafts. That is fatal to birds, because they quickly catch a cold (ornithosis).

CARE OF WIDOW HENS (staying at home):

Start of the Week: ½ Premium Start + ½ barley. The last 1 or 2 days: Premium Marathon + Turbo Extreme. They must only have eyes for their cock and nothing else.

Dietary recommendations are guidelines. We do not know the circumstances, so you have to adjust, if that is necessary.

Good luck.

Your Matador advice team.

PREMIUM MARATHON PLAN 2020

1 week before the first race: 100% Premium Detox to optimize the liver and the blood values.

Week 2. The pigeons stay at home this week.

To feed:	Saturday	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday:
Morning:	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start
Evening:	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start	3 parts Marathon 1 part Pr. Start
Extra:	Backs TS6 Plus Omega Oil				Backs TS6 Plus Omega Oil		

To feed: till some barley is on the floor or in the food tank.

Week 3: This week preparation the pigeons for the race.

To feed:	Saturday	Sunday	Monday	Tuesday basketing
Morning:	½ Premium Marathon ½ Turbo Extreme	½ Premium Marathon ½ Turbo Extreme	½ Premium Marathon ½ Turbo Extreme	½ Premium Marathon ½ Turbo Extreme
Evening:	½ Premium Marathon ½ Turbo Extreme	½ Premium Marathon ½ Turbo Extreme	½ Premium Marathon ½ Turbo Extreme	½ Premium Marathon ½ Turbo Extreme
Extra:	Backs TS6 Plus Omega Oil	Backs Protein Plus Omega Plus Oil	Backs TS6 Plus Omega Oil	Clear water

Sunday till Tuesday; to add peanuts.

We assume, that the pigeons have to feed their youngsters every day. When they have no youngsters to feed, you can feed like widowhood.

**Lots of success,
Your Matador team.**
